APPLICATION FOR PERMIT UNDER POLLUTION CONTROL ACT, 1967 (Effluent)

Preamble—The following application for installation of an in-bay car wash in the Shell service-station at 3100 Lakeshore Avenue is published in accordance with the requirements of the *Pollution Control Act, 1967*. It should be noted that the average daily effluent of approximately 185 gallons (4.5 gallons per wash) is less than one-third the rated capacity of the proposed evaporation mound and tile field. The effluent, which is composed of a biodegradable-type cleaning compound, natural organic wax, and water is disposed of entirely on our own property. The compounds break down readily in our system and are completely odourless. The wash, which is of the small roll-over type, has no conveyor or blower and, hence, is virtually noiseless.

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) of the *Pollution Control Act, 1967* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or, where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

Shell Canada Limited, of 1075 West Georgia Street, Vancouver, B.C., hereby applies to the Director for a permit to discharge effluent from an in-bay car wash located at 3100 Lakeshore Avenue, Kelowna, into the ground, and gives notice of application to all persons affected.

The land upon which the works are located is Lot 21, District Lot 14, ODYD, Plan 2708, Vernon Assessment District.

The discharge shall be located at Shell service-station, 3100 Lakeshore Avenue, Kelowna.

The quantity of effluent to be discharged is as follows: Average annual daily discharge (based on operating period), 185 imperial gallons. Maximum daily discharge, 450 imperial gallons.

The operating period during which the effluent will be discharged is 8 a.m. to 10 p.m. (wash closes when temperature below +20°F).

The characteristics of the effluent discharged shall be equivalent to or better than typical car-wash effluent.

The type of treatment to be applied to the effluent before discharge is settling-tank and surface skimmer, tile field and evaporation mound.

I, A. T. Harrison, Secretary-Treasurer, hereby certify that a copy of this application has been received by the Regional District of Central Okanagan.

This application, dated on the 7th day of February 1975, was posted on the ground in accordance with the Pollution Control Regulations.

Each tender must be accompanied by a bid bond or a certified cheque in accordance with clause (a) or clause (b) below:

(a) Where the total tender price exceeds \$100,000 a surety bid bond in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. The surety bid bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

The tender submitted is irrevocable for 60 days and may not be altered, amended, or withdrawn for any cause without the written permission of the Minister.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

The surety bid bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so.

(b) Where the total tender price is less than \$100,000 a surety bid bond or a certified cheque in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. If a bid bond is supplied this bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so. In the event that the successful bidder supports his tender with a certified cheque, but fails to produce the required performance bond and labour and material payment bond within a period of 14 days from the date of issuance of notice that his tender is accepted, the Minister of Highways shall have the right to forfeit the tender deposit in its full amount or to the extent of the difference in cost between the bidder's tender and the accepted tender, whichever is the lesser.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

The tender submitted is irrevocable for 60 days and may not be altered, amended, or withdrawn for any cause without the written permission of the Minister.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.
